

Art — Charles Fazzino 1955— Present

Knowledge

Artists demonstrate knowledge of significant artists and their techniques.

Generating

Artists use a variety of techniques to generate, plan and record ideas.

Making

Artists use a variety of different techniques and media to create art.

Evaluating

Artists evaluate their own and others' work.

Artist Biography

Charles Fazzino was born in 1955 in New York. He is best known for his Contemporary 3D silkscreen prints. He creates 3D looking cityscapes with a bright cartoon like image. He has created many cityscapes of New York and other famous cities around the world.

What techniques am I going to learn?

First Fazzino drew a line drawing and coloured it in using pencils, felt tips or paint.

It is then broken up into colours and a print is made of each colour section.

The prints are pieced back together and printed to make the full picture.

The picture is printed many times and Fazzino cut out individual buildings and glued them back using silicone to create different depths and layers making it 3D.

What should I already know?
